

ENVIRONMENTAL AND QUALITY COMPANY POLICY

OUR VISION: "BE AN OBJECT OF DESIRE, NOT JUST CHOICE"

CUSTOMERS – To increase customer satisfaction, to always put our customers first in our activities, and to understand and meet their current and future needs and requirements.

QUALITY – To provide sales, rental and after sales service in accordance with the company's management system. To continually improve the system to prevent complaints and accidents, and to place this system before the implementation of corrective measures. To regularly review compliance with management system requirements, and review the company's objectives, target values and set programmes. To manage, measure and monitor processes and evaluate their efficiency with the aim of their continuous improvement. We are governed by valid legislation and ISO 9001:2015 standards in this area.

PRODUCTS – To provide and service products that maintain a dominant position at the top of their field on the global market in medical devices, and whose economic value, functionality and attractiveness captivates our customers.

EMPLOYEES – To ensure the ongoing development of employee qualifications and skills, and to ensure their satisfaction and health. To motivate employees to take greater responsibility for quality and minimising the incidence of non-compliant products. To motivate employees to take responsibility for environmental protection, to minimise environmental impacts and accidents, to comply with occupational health and safety regulations and reduce the risk of disease, accidents and unwanted events at the workplace. To clearly organise relations within the company and establish a dignified working and living environment.

ENVIRONMENT – To use technologies, procedures, products and materials that do not endanger employees or the environment, and that are safe and environmentally friendly in relation to their intended use. To reduce the consumption of energy and raw materials in relation to production and ensure their ecological handling, storage and processing based on scientific and technical know-how. To ensure product introduction in the Italian market in compliance with local laws and obligations. the disposal of packaging. We are governed by valid legislation and ISO 14001:2015 standards in this area.

LEGISLATION – To comply with legal and other requirements, such as technical and safety requirements for safety and health at work and requirements for environmental protection.

Company management is committed to creating conditions to fulfil the company's vision and policy. At the same time, we expect all employees and people working for the company to understand and apply this policy.

On the occasion of the review activities of the Management System, the Management:

- verifies the adequacy and effectiveness of the Policy, in particular by monitoring company performance, the degree of application of the system and the achievement of the set objectives
- verifies the appropriateness of the Policy according to any changes in the internal and external organizational context and / or the needs and expectations of the Interested Parties
- defines the objectives (Strategic Goals Linet Italia) aimed at making the Policy concrete and ensuring the development and continuous improvement of the Management System.

This Policy is distributed to all relevant interested parties Affected by posting and inclusion in the company website (www.linet-italia.it).

December 1st, 2020
Marco Soregaroli
Managing Director
